

# Making Our New Year's Resolutions Work

2017

EDUCATIONAL  
LEADERS  
ASSOCIATION

## **# 4 To have the confidence to showcase my successes as Educational Leader in order to show what is possible**

### **My Action Plan:**

My challenge this year is to keep a list of every success, big and small, the innovative and the ordinary.

I will read them over on a regular basis (especially on the tough days!).

When I am working with staff, I will illustrate what is possible with real world examples.

I will use my list as part of my performance review meetings and make a point of relating these positive examples to each question that I am asked.
